

Neuro-Enhancement
Responsible Research and Innovation

The Center for Ethics and Law in Biomedicine (CELAB)
cordially invites you for the International Round table discussion

Neuro-Enhancement Policies for the Future

Panel discussion

with the participants of the NERRI project:

Agnes Allansdóttir (Toscana Life Sciences), Imre Bárd (LSE),
Rui Vieira da Cunha (University of Porto),
Judit Sándor (CEU), Márton Varju (CEU),

as well as with CEU Faculty, Students, and Invited Guests

Should human capacities be enhanced in academic work?

Should the law develop bright-line rules for regulating
the access to these technologies?

What will be the future policy demands for neuro-enhancement?

What is the future of enhancement tools: will they emerge simply
as new toys in the wearable gadget market or as enhancement
technologies radically altering the quality of life?

CEU Popper Room

2:00–4:00 p.m. on February 5, 2016

Followed by Reception
