of Knowledge, Universitat de Barcelona*

ROBERTA SINATRA

*Assistant Professor of Network Science
and of Mathematics, CEU*

WILHELM WIDMARK

Executive Board Member, LIBER

DANIEL WYLER

*Strategic Advisor to the President of
the University of Zurich*

WEDNESDAY, NOVEMBER 22 | 9:00 A.M. – 5:40 P.M. |

NADOR 15 | AUDITORIUM A

Open science is having a major impact on the creation and dissemination of knowledge worldwide, accelerating innovation, influencing policy, facilitating reproducibility of research, and changing the very nature of the scholarly ecosystem.

Join us for a one-day workshop focusing on the core elements of open science, including open access, research data management, e-infrastructures, and citizen science from the perspective of libraries and the researchers they support. Speakers from across Europe will present on the opportunities and challenges of open science and ask us to envision ways to enable a more open future.

Attendance is free. Registration required. | Limited number of seats available. Register today!

Full program and registration online at knowledge.services/events/2017-budapest
