

Science Studies in Budapest Workshop

The Science Studies program at CEU is organizing a one-day workshop where researchers from Budapest working on the history, philosophy and social studies of science and technology are invited to present their ongoing research. The workshop regroups a dozen of participants from several academic institutions in Budapest, including ELTE, BME, the Hungarian Academy of Science, and CEU. The workshop is a perfect way to get acquainted with science studies. Students and faculty from any institution are invited to attend the event.

Where? : On campus at CEU, Popper room, Nador u. 9, monument building

When? Friday, 14th of October, 2016
